

For Parents
This week your child has been exploring what it means to be 'growing up'. Having become 'senior infants' they can compare themselves with the new junior infants and see how much older, bigger and 'wiser' they have become. This is an important awareness for them, since 'growing up' is a life-long process, in many ways. You might like to pray/reflect with your child from your own faith or belief tradition, on the experience of growing up.
