

For Parents

This week your child has been exploring, in the second of two winter lessons, the need creatures have for food and how we can decide, or decide not to help others through the cold winter. You might ask your child to tell you about the Cricket and the Ant. You might like to pray/reflect with your child on the love of a family, and perhaps also, on the love of God that is experienced when others feed us, clothe us and share a warm home with us through the winter.
